

**Table 1. M.Sc. PROGRAMS (With Thesis)**

<i>Program</i>	<i>Requirement</i>
<b>Manufacturing Engineering</b>	Applicants should be graduates of the Faculty of Technology, the Faculty of Technical Education, or engineering faculties related to manufacturing engineering.
<b>Energy Systems Engineering</b>	Applicants should be graduates from the departments of Energy Systems Engineering, Mechanical Engineering, Electrical Engineering, Electrical-Electronics Engineering, Automotive Engineering, Chemical Engineering, Environmental Engineering, Materials Engineering, Materials-Metallurgical Engineering, Chemistry, Physics, or one of the related departments.
<b>Mechanical Engineering</b>	Applicants should have a bachelor's degree from Industrial Engineering, Industrial Design Engineering, Aerospace Engineering, Manufacturing Engineering, Mechanical Engineering, Mechatronics Engineering, Metallurgical and Materials Engineering, Automotive Engineering, or one of the related fields.
<b>Electrical and Electronics Engineering</b>	Applicants should have a bachelor's degree from one of the departments of Electrical and Electronics Engineering, Electrical Engineering, Electronics Engineering, Control and Automation Engineering, Computer Engineering, Electronic Communication Engineering, Biomedical Engineering, Information Systems Engineering, Mechatronics Engineering.
<b>Automotive Engineering</b>	Applicants should have a bachelor's degree from Mechanical Engineering, Automotive Engineering, Materials and Metallurgical Engineering, Mechatronics Engineering, or related departments of Engineering Faculties.
<b>Industrial Engineering</b>	Applicants, engineering faculties should have a bachelor's degree from one of the departments of Industrial Engineering, Systems Engineering, Electrical-Electronics Engineering Mechanical Engineering, Management Engineering, Industrial and Systems Engineering, or Computer Engineering.
<b>Micro and Nanotechnology</b>	Applicants should have a bachelor's degree from Chemistry, Physics, Biology, Biochemistry, Chemical Engineering, Physics Engineering, Environmental Engineering, Industrial Engineering, Materials Engineering, Metallurgical and Materials Engineering, Bioengineering, Biomedical Engineering, Biotechnology, Energy Systems Engineering, Mechanical Engineering, Aerospace Engineering, Food Engineering, Bachelor's degree in Civil Engineering, Electrical Engineering, Electrical-Electronics Engineering, Mining Engineering, Geological Engineering, Automotive Engineering, Manufacturing Engineering, Mechatronics Engineering or related fields.
<b>Computer Engineering</b>	Applicants should have a bachelor's degree from one of the departments of Computer Engineering, Software Engineering, Information Systems Engineering, or Mathematics Engineering.
<b>Aerospace Engineering</b>	Having a bachelor's degree from Aerospace Engineering, Aerospace Engineering, Aeronautical Engineering, Mechanical Engineering or Mechatronics Engineering
<b>Finance and Banking</b>	Candidates should hold a BSc degree
<b>Political Science and Public Administration</b>	Applicants should have a bachelor's degree from Public Administration, Political Science and Public Administration, Political Science, Political Science and International Relations, International Relations, Economics, Finance, Labor Economics and Industrial Relations, Sociology, Psychology, Philosophy, City and Regional Planning, or Law.
<b>Health Management</b>	Applicants should have a bachelor's degree from Health Management, Health Administration, Management of Health Institutions, Business Administration, Economics, Law, Public Administration, Public Health, Medicine, Pharmacy, Nursing, Midwifery Dentistry, Health Sciences or Industrial Engineering programs.
<b>Economics</b>	Candidates should hold a BSc degree
<b>Business Administration</b>	Applicants should have a bachelor's degree from one of the departments of Business Administration, Economics, Public Administration, Political Science and Public Administration, Political Science and International Relations, International Relations, Finance, International Trade and Logistics, Human Resources Management, Health Management, Labor Economics and Industrial Relations.
<b>Human Resources Management</b>	Applicants should have a bachelor's degree from one of the departments of Business Administration, Human Resources Management, Labor Economics and Industrial Relations.
<b>Accounting and Finance</b>	Candidates should hold a BSc degree
<b>International Trade and Logistics</b>	Applicants should have a bachelor's degree from one of the departments Faculty of Economics and Administrative Sciences, Faculty of Business Administration, Faculty of Economics, Faculty of Political Sciences, Faculty of Applied Sciences, Faculty of Transport and Logistics, School of Applied Sciences; Industrial Engineering
<b>Social Work</b>	Applicants should have a bachelor's degree from the Department of Social Work.
<b>Department of Child Health and Diseases Nursing</b>	To be a graduate of the Department of Nursing. To have at least one year of clinical experience in the field of Child Health and Diseases Nursing.
<b>Midwifery</b>	To be a graduate of the Department of Midwifery. Have at least one year of experience in midwifery.
<b>Speech and Language Therapy</b>	Having a bachelor's degree from Speech and Language Therapy.

**Table 2. PhD. PROGRAMS**

<i>Program</i>	<i>Requirement</i>
<b>Manufacturing Engineering</b>	Applicants should hold a M.Sc. degree in Engineering.
<b>Energy Systems Engineering</b>	Applicants should hold a M.Sc. degree in Energy Systems Engineering, Mechanical Engineering, Electrical Engineering, Electrical-Electronics Engineering, Automotive Engineering, Chemical Engineering, Environmental Engineering, Materials Engineering, Materials-Metallurgical Engineering, Chemistry, Physics, Nanotechnology, Biotechnology or related programs.
<b>Electrical and Electronics Engineering</b>	Applicants should have a M.Sc. degree from one of the departments of Electrical and Electronics Engineering, Electrical Engineering, Electronics Engineering, Control and Automation Engineering, Computer Engineering, Electronic Communication Engineering, Biomedical Engineering, Information Systems Engineering, Mechatronics Engineering.
<b>Mechanical Engineering</b>	Applicants should hold a M.Sc. degree in Industrial Engineering, Industrial Design Engineering, Aerospace Engineering, Manufacturing Engineering, Mechanical Engineering, Mechatronics Engineering, Metallurgical and Materials Engineering, Automotive Engineering or a related programs.
<b>Finance and Banking</b>	Candidates should hold a MA degree
<b>Political Science and Public Administration</b>	Applicants should hold a M.Sc. degree from Public Administration, Political Science and Public Administration, Political Science, Political Science and International Relations, International Relations, Finance, Labor Economics and Industrial Relations, Law, Philosophy, Urban and Regional Planning, Communication or Sociology.
<b>Business Administration</b>	Applicants should hold a MBA degree from Business, Economics, Public Administration, Political Science and Public Administration, Political Science and International Relations, International Relations, Human Resources Management, Finance, Labor Economics, Health Management or Industrial Relations.
<b>International Trade and Logistics</b>	Candidates should hold a MA degree from International Trade and Logistics, Logistics Management, International Logistics and Transportation, International Logistics Management, International Logistics, Logistics, International Trade Management, Business Administration, Economics, Industrial Engineering, International Trade and Logistics Management, International Trade Programs.
